使用特点 Use feature

1. 使用橱柜的上翻木门和铝框门
2. 开启角度：通过改变安装尺寸，上翻门最大开启角度可调整在 75°、90°、105° 位置
3. 上翻门在开启到最大开启度可停住，其它任意位置为随意停状态及门板在任意位置可以停住。
4. 调整重新六角螺丝可承受不同重量的门板，达到最佳效果。

1. Use the upturned wooden door and aluminum frame door of the cabinet
2. Opening angle: By changing the installation size, the maximum opening angle of the upturning door can be adjusted at 75°, 90°, and 105° positions
3. The upturning door can be stopped when it is opened to the maximum opening degree, while other arbitrary positions can be stopped at will and the door panel can be stopped at any position.
4. Adjust the new hexagon screws to withstand different weight of the door panel to achieve the best effect.
